

## ScreenShots

## The image shows a Mac desktop environment. In the background, a Google Chrome browser window is open at a Google Docs link. Overlaid on the browser is a code editor window showing Swift code for an iOS app. In the foreground, an iOS Simulator is running, displaying a screen with a title bar 'Carrier 1:04 PM' and a form with three text input fields labeled 'Book Name:', 'Author Name:', and 'Description:'. The inputs contain 'book4', 'author4', and 'description4' respectively. At the bottom of the simulator screen are two blue buttons labeled 'File Storage' and 'Archive'. The Mac's dock at the bottom contains various icons including Finder, Launchpad, Spotlight, Mail, Photos, App Store, and others.
